Hi sir - early reports from media that OPS have intercepted someone associated with the convoy who was driving into town and acting erratically. Have reached into our officials to see if they have more info.

This afternoon, Ottawa Police put out a BOLO on a member of the convoy who was acting erratically: Quoting Bible verses, saying goodbye to everyone, saying he was headed for Parliament.

Police later pulled over a semi-tractor east of the city involving "a person in distress"
